Authorization for this examiner's amendment was given in a telephone interview with Mark M. Abumeri on February 18, 2005.

**IN THE CLAIMS:**

In claim 1, line 2, after "storing voltage data in a", -- column resistance -- has been inserted.

In claims 1, 7, line 9, and claim 9, line 13, "concurrently" has been deleted.

In claim 7, line 4, after "currents", -- and column resistance correction data -- .

3. The following is an examiner's statement of reasons for allowance.

None of the cited references teach an LED display method for applying the determining voltage from the column resistance correction table(352) to an organic light emitting diode and charging a first capacitor(320) to a first voltage to drive a current across an organic light emitting diode(412) in a first row of a video display, and concurrently using a second capacitor(324) to drive a current across an organic light
